

Faculty of Architecture, University of Lisbon (Portugal) - FAUL

*Oksana Turchanina, António Castelbranco*

Rethink project: progress and sustainability // pp.311-312

Polytechnic Institute of Leiria (Portugal) - IPL

*Helena Pala D. Sousa, João Ramos, Maria Lizete Heleno, Nelson S. Oliveira*

Reflections on an Environmental Education Summer Program in a School of Higher Education in Portugal // pp.296-299

State Engineering University of Armenia (Armenia) - SEUA

*K.S. Saakyan, A.R. Aleksanyan*

The use of checklists as a method to collect information during the practical training of students // pp.284-286

University of A Coruña (Spain) - UDC

*Marcos Lado, Antonio Paz Gonzalez, Fernando Peña, Fernando*

Internationalization of the MSc. In Environmental Science, Technology and Management of the University of A Coruna in the framework of the project RETHINK-Reform of Education THru International Knowledge Exchange // pp.260-263

Baku State University (Azerbaijan) - BSU

*S.R. Gadziyeva, E.M. Kadyrova, U.N. Rustamova, H.L. Rafiyeva*

Using a regional component in the teaching of environmental disciplines (examples from pollution of the Caspian Sea) // pp.238-241

Aleco Balti Russo State University (Moldova) - USARB

*V.A. Sharagov*

Using by the students of the system analysis to determine factors affecting the results of the experiment in chemical and environment education // pp.207-210

Technical University of Moldova (Moldova) - TUM

*S.T. Kharitonova, A.V. Verejan, A.S. Gurev, M.T. Lupacescu, G.V. Lupacescu*

Individual-oriented education of students // pp.200-203

Brest State Technical University (Belarus) - BrSTU

*Vitali Khaletski*

Content lines in chemical education for would-be engineers in technical university // pp.197-200

State Engineering University of Armenia (Armenia) - SEUA

*Artashes Tadevosyan*

An effective method of doing the diploma project by the students of technical universities // pp.182-184

Polotsk State University (Belarus) - PSU

*I.V. Buraya, A.A. Yermak, E.V. Molotok*

Modular approach in forming of professional competencies of engineer-chemist-technologist // pp.27-30
